

Service Solutions & Automation

Reduce stretch film costs up to 30% & boost performance!

Using our expert service and advanced stretch films, we optimize pre-stretch %, wrap efficiency & containment while reducing damage ratios. Unlock better performance—partner with IPG today!

Maximize Efficiency. Minimize Waste.

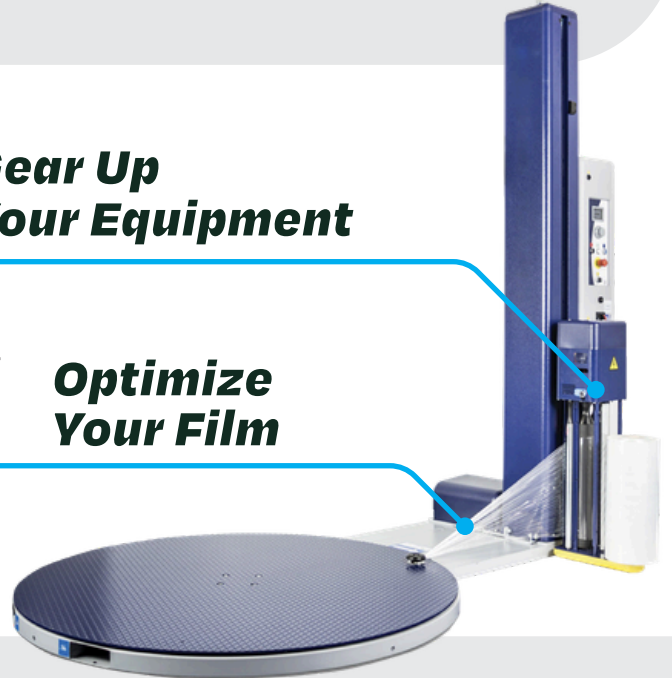

Up to 75% of stretch wrap equipment operates below 200% pre-stretch.

Did you know that after two years pre-stretch rollers can lose up to half of their original capability?

Gear Up Your Equipment

Optimize Your Film

Benefits

Reduced cost of materials

Reduced downtime and operational expenses

Less storage space required

Less material waste, lower carbon emissions.

Proof of savings!

Offers...

STEP 1

FREE physical Evaluation of your equipment by our expert Service team, including load analysis.

STEP 2

A full analysis of savings and performance enhancements will be provided.

STEP 3

Approve your evaluation, sign up for a 1 yr. supply agreement & IPG will install your upgraded pre-stretch gears to optimize your Machine & Film performance.

STEP 4

Sign up for an IPG Silver PM Agreement to maintain your optimized settings & machine performance with 2 annual visits.
